Appendix

A.1
INTERNATIONAL SYSTEM OF UNITS 953

International System of Units (Table A.1a) 954
Alphabetical List of Units (Table A.1b) 955

A.2
ENGINEERING CONVERSION FACTORS 963

Conversion Factors (Table A.2a) 963
Units of Area (Table A.2b) 972
Units of Density (Table A.2c) 972
Units of Work, Energy, Heat (Table A.2d) 972
Units of Mass Flow (Table A.2e) 973
Units of Volume Flow (Table A.2f) 973
Units of Length (Table A.2g) 973
Linear Conversion (Table A.2h) 974
Units of Power (Table A.2i) 975
Units of Pressure (Table A.2j) 975
Pressure Conversion (Table A.2k) 976
Pressure Head Conversion (Table A.2l) 977
Temperature Conversion (Table A.2m) 978
Units of Time (Table A.2n) 978
Units of Velocity (Table A.2o) 978
Viscosity Conversion (Table A.2p) 979
Viscosity Conversion Chart (Table A.2q) 981
Approximate Viscosity Conversion Chart (Table A.2r) 982
Units of Volume (Table A.2s) 983
Units of Weight (Table A.2t) 983
Weight Conversion (Table A.2u) 984

A.3
CHEMICAL RESISTANCE OF MATERIALS 985

Chemical Resistance of Materials (Table A.3) 986

A.4
COMPOSITION OF METALLIC AND OTHER MATERIALS 993

Composition of Metallic and Other Materials (Table A.4) 993

A.5
STEAM AND WATER TABLES 997

Dry Saturated Steam: Temperature Table (Table A.5a) 997
Properties of Superheated Steam (Table A.5b) 999
Properties of Water at Various Temperatures from 40°F to 540°F (4.4°C–282.2°C) (Table A.5c) 1003

A.6
FRICTION LOSS IN PIPES 1005

Friction loss modulus for 100 ft of (a) 1 in., (b) 1.5 in., (c) 2 in., (d) 3 in., (e) 4 in., and (e) 6 in. steel pipes (Figure A.6.1) 1006

A.7
TANK VOLUMES 1013

Capacity of Round Tanks (per Foot of Depth) (Table A.7a) 1013
Capacity of Partially Filled Horizontal Tanks (Table A.7b) 1014
Capacities of Various Cylinders in U.S. Gallons (Table A.7c) 1015

A.8
PARTIAL LIST OF SUPPLIERS 1017
